ESSAY WINNERS TO BE ANNOUNCED IN SUNDAY PAPER

Judges of the government's good oads essay contest, conducted in the south by The Constitution, have chosen the winner for the south and the six winners of Georgia prizes, and the results will be announced in The Constitution tomorrow. The three less essays, as selected by the judges, also will be published in full.

In view of the wealth of excellent material submitted from many sections, the judges had an exceedingly bard task and gave much time and effort before they made their final ratings.

The best essay will be forwarded to Washington for competition in the national contest for the Firestone university scholarship.

# There's a ROGERS' Store near you Where Satisfaction is a certainty

ABOUT WHITE LILY-What is all this Quality and Price talk Rogers has been doing about White Lily? It's simply this: Rogers has made tests and compared White Lily with all other high grade flours and finds that White Lily is the best flour milled in America. Regardless of price, White Lily has no equal. In order that the consuming public might become acquainted with White Lily, they have been offering it at an unreasonably low figure. Monday morning the price on a 24lb. bag jumps from \$1.12 to \$1.29, so we advise every one of our patrons to fill their flour bin. The price of White Lily is subject to change, but the quality does not vary-that's why Rogers stands behind every sack with an incompromising money-back guarantee.

LAROSA AND "37" are two old reliable brands of flour which have gained favor throughout our territory as excellent biscuit flours. If you have been paying \$1.25 or \$1.30 for your flour, try a sack of LaRosa or "37." La-Rosa is the plain flour and "37" is self-rising. You will be pleased with its quality. Our price on these two brands will also be raised Monday morning.

A SEASONABLE SUGGESTION - declare your independence. Now is an excellent time to break away from the antiquated credit system and high prices. For your convenience, there are 100 Rogers' Stores in Atlanta, offering numerous price concessions, and you will enjoy the service you get in our stores. It may be a few steps farther, although it seldom is, but you will save many dollars in a year's time by purchasing real quality foodstuffs at economy prices.

turned the session into a testimonial meeting as they arose, one after an-other, and announced their willingness to cancel all existing contracts for the performances of railroad work with outside firms. Practically all maintained that it was their legal right to contract such work, but expressed a desire to comply with the board's rulings, if, thereby, the strike crisis might be relieved.

Three other union heads, in addition to President Grable of the maintenance brotherhood, gave assurance to the board, that, although their or-ganizations were taking strike votes no call to quit work would be issued

Long Discussion.

The announced delay of the maintenance of way strike call, which had been expected tonight from the headquarters in Detroit, came after a lengthy discussion between Mr. Grable and Chairman Hooper. Mr. Grable told the board that more than half of the 228,000 votes had been canvassed, the results thus far show-

The employees' grievances, he explained, included the \$50,000,000 pay cut which goes into effect under a board decision tomorow, the contracting of track labor, and removal of the 8-hour lay through several rules changes recently issued by the labor board. If the men could have some assurance of a rehearing on these grievances, Mr. Grable said, he volunteered to "use his influence" to prevent a strike. rent a strike.

Then followed interrogations of E. II. Fitzgerald, head of the brother-hood of railway clerks, D. W. Helt, president of the Brotherhood of Railpresident of the Brotherhood of Rail-road Signalmen, and finally of Tim-othy Healy, who appeared in answer to the subpoena issued by the board. All three explained the strike votes being taken by their memberships, each assuring the board that no im-mediate strike would be called, al-though Mr. Fitzgerald predicted that freight handlers, members of his or-ganization, might leave their work on some roads simultaneously with the some roads simultaneously with the shopmen tomorrow. They would leave, nowever, without the union's author-ity, as strike ballots are being cast on but 60 roads, where the power to

"The board has ample powers to compel Mr. Jewell's presence here as a witness," said Chairman Hopper, "not as a party to this controversy, but as a witness to material facts in-volved in this hearing.

"Not Worth While." "Tomorrow is the day set for the strike of his organization and that being the case, it is not worth while to adjourn the hearing until tomorrow to undertake to compel Mr. Jewell's presence here. No practical purposes could be subserved by it.

"The board right here might express its appreciation of the different course of conduct adopted by the gen-

press its appreciation of the different course of conduct adopted by the gentlemen representing the other organizations of employees, and also its appreciation of the very fine spirit shown by nearly all of the railroads."

Neither Mr. Jewell nor any of the officials of the shop unions could be located here tonight. Rumors were afloat in railroad circles that the strike would be called off, despite Mr. Jewell's firm stand in his letter to the board. Withdrawal of the support of board. Withdrawal of the support of the maintenance of way men, it was declared, would act as a damper on the shopmen's strike and the announcement that the farming out of shop work would be discontinued by a majority of the roads involved in the shopmen's contract grievance, was said to be another incentive to kill the strike move at the last minute. THREE ROADS "UNCONCERNED."

Savannah, Ga., June 30.—(Special.) Railroad officials of the three roads likely to be affected, the Central, the Coast Line and the Seaboard, which have shops here, declared today that they were not seriously concerned about the pending strike as to any serious interference with the move-ment of trains.

GOVERNMENT BACKS LABOR BOARD.

LABOR BOARD.

Washington, June 30.—The administration speaking today through the white house on the eve of the called strike of 400,000 union railroad shop workers declared its determination to stand squarely behind the railroad labor board. It is because of the decisions of the labor board that the shop craftsmen have decided to strike at 10 a. m. tomorrow.

The administration view set forth in language as forcible asc the spokes-

in language as forcible asc the spokes-man could command, was that the la-bor board is the one agency of the government dealing with disputes between the roads and their employees and therefore its decree must and would be backed up by the government.

"Speaks As Government."

"Speaks As Government."

The labor board "is the government when it speaks" was the way the spokesman summed up the administration view, adding that this view held whether the board's decisions drew the protest of labor organizations because they involve cuts in wages or whether they are protested by the railroads because they required the managements to desist in contracting out regular work to private shops. The decisions of the board, the administration further was asserted to hold. istration further was asserted to hold, are by the delegated authority of congress and in a field definitely marked

gress and in a field definitely marked by law.

The administration pronouncement was made just a few minutes after there occurred in Chicago what Chairman Hooper, of the labor board, declared to be a flouting of a government body by B. M. Jewell, head of the railroad department of the American Federation of Labor, namely, the refusal of Mr. Jewell and some of his colleagues to answer a summon of the fusal of Mr. Jewell and some of his colleagues to answer a summon of the board. Whether the administration view went as far as to take action therefore was a question left open for the time being. The general belief, however, was as that the transportation act clothed the labor board with no powers to inforce its decisions, there were no steps left for the government to take at this stage except to maintain its stand behind the board's decisions.

IN MOBILE.

Mobile, Ala., June 30.—Members of the federated trades employed in the big repair shops here of the Louisville and Nashville, Mobile and Ohio, and Southern roads are making preparations for living up to the strike order that becomes effective Saturday morning at 10 o'clock. Heads of the craft in the Whistler shops of the Mobile and Ohio say that every employee in the place will come out.

This does not necessarily mean that the republican administration has been unduly extravagant or wasteful, the record being interesting mainly by reason of the preelection charges, by republican candidates and other partisans, of gross extravagance and administrative incompetency on the part of the democrats then in office; and also because of the repeated statements of the director of the budget relative to the enormous savings that are being made under the republican administration.

Representative Byrnes, of South Carolina, pointed out in a speech the other day that if the director of the budget is saving the people's money, "clearly he is not saving made by congress," for "clearly he ! has not cut out any expenditures

made."

The congressman explained that if the director of the budget had prevented some department from making expenditures not authorized by congress and not covered by apby congress and not covered by appropriation he might be measurably correct, but it would not be a saving because, he said, "the mere fact that some bureau has not spent more money than congress said a blood contains about 2 1-2 grains of unit cated the excess merely indicates a deficient metabolism, a deficient oxidation process. In medicine it has ever been the art that has said "I believe," "I think," and "I hope," and, days or years or generation later, the science that has said "Yes, I know now."

The theory that uric acid is a cause of disease has never won full recognition in actual practice. So far as medical science has advanced there has been no confirmation of the theory. On the contrary, the evidence obtained from actual tests made under carefully controlled conditions dence obtained from actual tests made under carefully controlled conditions rather goes to prove that the cause of gout is not uric acid, although it is a fact that so called "chalky" deposits in the tissues of the body and about the joints in gout and other diseases are derived from uric acid. These deposits, lumps or "tophi" are not chalk, but mostly monoscilum urate. chalk, but mostly monosodium urate.

There is even some doubt in the minds of physicians well informed in science, whether uric acid may be relied upon as an indicator for the measurement of the deficient metab-

Right now it is customary for some physicians to have chemical tests of the blood made to determine, among other things, how much uric acid is present in the blood. When more than the normal amount (which is only it by reducing the appropriations about one-tenth of a grain in each made by congress," for "clearly he pint of blood in an adult on a purin free diet) is found, the conclusion is sometimes drawn that the individual which were authorized by congress and for which appropriations were or joint diseases, but this conclusion is scarcely justified, because an in-

### Resolution Widens Probe of Letters On Glass Speech

Constitution Bureau Raleigh Hotel.

Washington, June 30 .- (By Constitution Leased Wire.).-The long fight in the senate over the activity of the Atlanta branch of the Federal Reserve bank in sending out copies of a speech made by Senator Glass of Virginia, attacking Senator Heflin, of Alabama, for bis criticism of the board's policies, came to an apparent end today with the passage of a res-olution calling upon all member banks to supply information concerning the number, origin, and expense of send-ing out the speech. This is the same subject over which Senator Heflin and Senator Glass called each other

profuse liars on the floor recently.

The matter has been hanging fire in the upper chamber for several weeks, and today led to a spirited debate in which Senator Heflin and Senator Watson, of Georgia, took the leading part. So heated became the leading part. So heated became the discussion that the Georgia senator, who was supporting the member from Alabama declared that he at an early date, would offer a bill to revoke the federal reserve banks charter.

Heflin's Charges'. Senator Heflin claims that the Atlanta bank sent out a large number of letters to constituents of his con-taining the speech made by Senator Glass in which he was severely ar-Glass in which he was severely arraigned. At the time he introduced a resolution, which passed, calling upon the Atlanta bank to give full information on the subject. The Atlanta bank complied, stating that some 6,500 of the letters had been mailed at a cost of approximately \$180.

Meanwhile someone whispered to the Alabama senator that other members of the federal reserve system had done likewise, and that there were probably 100,000 of the letters mailed to persons in his home state. This

to persons in his home state. This provoked the second resolution, which included "all member banks" to do likewise, and with the further provision that a copy of the accompanying letter be attached.

Senator McLean, Connecticut, chairman of the banking and curreny committee, objected to the resoluion on the ground that the require-ments were too personal. Answering his Senator Watson asked:

Senator Willys, Ohio, joined to say Senator Willys, Ohio, joined to say he agreed to everything except the request for the letter accompanying the speech. In this Senator McLean voiced the latter contention also.

Replying Senator Heflin declared that the whole affair was a matter of propaganda directed against him.

From this he asserted that he would shortly demand that the charter of the system be revoked.

Leaves Off Letter.
Following a statement from the Alabama senator that it was his purpose to bring up the resolution at regular intervals until its passage was assured. Senator McLean said he would withdraw objection provided the clause pertaining to the letter ac-

the clause pertaining to the letter accompanying the speech be stricken out. In agreeing to the suggestion, Senator Heflin stated he would take that for the present, "but I intend to keep after them until I get it all."

The resolution calls upon all member banks to state at whose instance the letters were sent out; what expense there was attached to it; how many copies were mailed, and "did any member request the letter to be sent."

## We Appreciate Small Accounts

BIG BUSINESS MAN recently asked us A why we were so eager for small Savings Accounts. He could not see why we should be elated over opening a hundred accounts in one day when they totaled only twelve or fifteen hundred dollars.

The depositors in the Savings Department of the banks of any town are the backbone of the business life of that town. They are the people who will be doing the big business within a few years, and we are glad to have them while they are small, so that we can demonstrate to them the convenience of doing business with us, the safety of their money while it is in our care, and show them something of the care we take of every customer.

We will appreciate your account, and invite you to do business with us.

Diana Langley, who possesses to a superlative degree a quality of "lure" wished for her at birth by her youthful aunt, Marjorle Langley, herself a notable beauty, to whom Stephen Dale, a wealthy bachelor, has been devoted for years, impetuously declared her love for Dale, and on being told that he can provide the proper of th

In answer to Diana's half-frightened, half-amazed cry, Dale reached over and patted her shoulder in consoling, big-brother fashion.

"Don't be alarmed, dear child! It isn't as bad as it sounds. Leigh has probably shown up already with a perfectly satisfactory explanation. Anyway, the admiral could likely get him out of serious thouble."

"But Ted!" Diana apparently dismissed her husband's plight without great consideration. "I hate to think that I am responsible for Sylvia and Ted having a row. Of course Ted is an impossibly gallant old darling and it would be just like him to go tearing off after any girl who needed help, but I doubt if you could ever tearing off after any girl who needed help, but I doubt if you could ever make Sylvia believe that. I know what I'll do," she decided suddently, "as soon as I get to San Francisco, I'll invite Sylvia out to visit me, and I'll manage somehow to pour oil on the troubled waters for Ted's sake. Even if I have to pretend extreme devotion to Alex." she added.

Dale frowned.

"Oh I'm only a walking echo of Marjorie, shrugged Diana. "Since she is your divinity, you should approve of me without qualification." "Did I ever say that Marjorie was my divinity, as you call it?" inquired Dale.

"No. But you've worshipped at her No. But you've worshipped at de-shrine for long enough years for one to accuse you of heroine worship," replied Diana carelessly as she pre-pared to climb out of the car.

"But you're different from all other men, Steve," she said softly. "That's why I'm—I'm so—fond of you."

He made no reply, but sat digging the heel of his boot into the sand. Diana was piqued. Also, there swept over her again some of the humiliation she had felt that memorable afternoon in the Bevan's deserted drawing room when she had admitted to Stephen Dale that she loved him and had been told so gently, but irrevocably, that reciprocation was impossible.

She felt again the desire to make this man pay and an imp of the perverse prompted her course.

"I'm glad," said Dale slowly. "More glad than I can say. I was fool enough to lose a good deal of sleep over you—and my own problem. But now, you've taken a great load off my mind and I'm glad, Diana."

## AT WOMAN'S WINDOW

BY W. L. GEORGE

I have suggested before in these columns that a girl should make friends with older women because there she will find sympathy and es uderstanding. But there are other reasons of a rial kind which recommend to a young woman that she should seek the society of an older one. The advantage in such a companionship is that the young girl may obtain invaluable hints as to the conduct of the social life. Often when a girl marries she has a vision of a snakeless Eden into which never enter her friends, his friends, the people of the city about them. She may say to herself: "We shall have parties," but they are parties in the air. She thinks that every-thing will come easy in Eden.

In fact, the young girl is often badly trained for the entertaining which is going to be necessary for the furthering of her husband's career. She goes about mainly with girls and boys of her own age; they go to the theater, to the movies, they skate, play tennis; there is joking and horseplay. The girl acquires no knowledge of the methis joking and horseplay. The girl acquires no knowledge of the methods for making a party a success because she deals only with people so young that anything will be a success. Later, when she is taken into dinner by a dull, middle-aged man, she makes a failure unless her good jooks save her . . and good looks will not save her in the end. That is where the older woman comes in; she has to be treated differently from the young person; she demands to be entertained, interested; she is good practice. Moreover, when the older woman invites the young girl she gives her a lesson in management; she teaches her how to introduce, whom not to thrust upon some one else, how to watch guests and see that all are amused. Only the older woman can do it, for social management is not a matter of tact only, but of experience.

As a matter of fact, it proves only that three great American golfers were at or near their best, and that, besides playing excellent golf and showing the old fighting spirit, had the slight break in luck. This is true, whether an American. Briton or Australian is playing. The class of the first 20 golfers in a British open is so close together that the one most favored by fortune through the four together that the one most

But there is another element, and that is the fact that, since the war, British golf has declined a trifle. The ones playing are holding the class, but there are fewer men today in the United (more or less) Kingdom than in many years who can devote a great amount of time to playing. Hagen, Barnes and Hutchison practically do nothing except play golf. A great many of the British pros have other positions. In fact, life has been a bit strenuous for many of the British pros since the war; money is not so easy; the number of players has been reduced, at least the number of those who can devote all their time to the who can devote all their time to the sport and who have money.

There is an additional reason:

Cincinnati, June 30.—The Latonia derby, to be rum at Latonia, Ky., tomorrow, will bring together a field of probably six thoroughbreds to contest for the \$15,000 stake, over a mile and a half route.

Chief interest among horsemen today centered in Olympus and Broomster, from the Harry P. Whitney stable, and Thibodeau, runner-up to Whisaway in the Kentucky special last week, when Morvich was beaten off and finished a trailing third. Other probable starters are John Finn, which ran third in the Kentucky derby at Churchill Downs Yoshimi and Margaret Winsor. The latter, the only filly in the race, will carry 121 pounds, against 126 pounds for each of the colts.

Exterminator, W. S. Kilmer's "Iron Horse" arrived at the Latonia track from the east yesterday. The McGee gelding shipped well and will be a starter in the independence handicap on July 4. In this race he will carry ar impost of 140 pounds.

## DERBY TODAY AT LATONIA Spiller Will Suggest Split Season;

Presient Martin of the Southern Association of Baseball clubs for his attitude on the subject of a split season for this association. Spiller has had this proposition in mind for several days and according to his statement last night, he feels that he will be

able to carry enough votes to make the split season a feature of this sea-son's play in the Dixie major. Split seasons have been tried out in many leagues and with fine success, both from standpoint of the players and the magnates. Without question, the divided seasons would be magnated. the divided season would keep up in-terest in the pennant races, that un-der conditions like last year, when the long race becomes a marathon for the league leaders, very naturally there is a lessening of interest that reflects in the playing of the members of the teams that are far down in the race. President Spiller's proposition is to divide the present race after July 4 and have the winners in the first and last half of the season play a seven game series for the pennant.

ated under the split season plan this year. If the Southern adopts the plan the winners of the post-season pennant series in each league will play for the class "A" championship.

In the Dixie major the Memphis Chicksaws seem to have a "lock" on the first half of the pennant, and the magnates who have been strengthening their teams for the last part of the son?

Texas League Adopts Plan.

Presient Martin of the Southern AsOf course the local magnate realizes

that there are a number of owners in this circuit who are against any change, but he hopes that enough will see the advantages of the plan for The Argument Against.

The main argument that has been used against the split season here-tofore in the Southern association has been the fact that the Natioal and American leagues do not have split seasons. This is very true, but con-ditions differ in the majors and here. In the first place the season's play in the major is simply an elimination race for the world's series. The average fans thinks only a little abour a pennant winner, that loses the fight for the title of world's champions.

In the Southern loop, we have the post-season games between the winner in the Texas league and the winner in this loop but the big Interest is lacking. their teams for the last part of the season drive would welcome the split season.

President Spiller stated last night that he felt that five or six of the Southern league votes on a proposition.

The viewpoint taken in this matter is not totally a selfish one on the part of the local owner but it is a step to help all the clubs and owners and the Southern association.

The Aeriola Sr. has a wave length range of from about 150 to 500 motors. It was designed mainly for operation of broadcast reception on a wave length of 300 meters, but it will receive amateur stations on 200 metals, and it may be made to receive commer-cial stations on 600 meters by using a slightly longer serial. The range given is with an aerial about 100 feet long.

Bulls in the wheat market had an initial advantage owing to an unexpected upturn in Liverpool quotations and because of correct forecasts that unofficial estimates of the domestic winter crop yield would be reduced sharply. Uneasiness regarding chances of a railroad strike tended chances of a railroad strike also to stimulate buying. Black rust gossip, however, taken in connection of the results of the strength of with much increased strength of values at Minneapolis soon became the dominating factor, and for a while the dealings were on a broad scale, With only a short session of the board of trade tomorrow and on Mon-day and then a full holiday, slackening of demand became evident in the wheat market nevertheless before business ended. Efforts during the last couple of hours were devoted chiefly to transactions of an eveningup character. It was at this time in particular that the absence of any damage reports from the places where black rust had been discovered was the subject of increasing comment, and had much to do with practically wip-ing out the gains which were scored

# DECLINES IN COTTON FOLLOWED BY PARTIAL RECOVERIES

## Trading Is Attributed To Further Evening Up for Bureau Report

New York, June 30.—An early decline was followed by partial recoverles in the cotton market today, but business generally was quiet and the bulk of trading was attributed to further evening up of accounts for over the approaching government report. October contracts sold up from 21.41 to 21.59 and closed at 21.52,

with the general market closing steady at a net decline of 3 to 16 points. The market opened easy at a decline of 13 to 21 points, in response to relatively easy Liverpool cables and reports of improving weather conditions. Selling was not active or aggressive, but there appeared to be few buyers around the ring, and prices sagged off until July touched 21.48 and December 21.23, with active months generally showing net losses of 20 to 25 points. There was enough covering to steady the market around these figures and rallies of 10 to 18 points from the lowest were prompted by more numerous complaints regarding the presence and activity of the boll weevil in

July sold up to 21.59 and December to 21.39, but this improvement was not fully maintained, last prices showing reactions of 3 to 9 points from the best. There were two more private condition reports, one of them published by an authority here, making the condition 72.4, and the indicated crop 11,224,000 bales.

Later a New Orleans report placed the crop at 75, or the highest

figures so far mentoined. According to a canvass made today, New York cotton exchange members, on the average, expect a government report next Monday of 73.2. Private cables reported a quiet market at Liverpool, with a less active spot demand, but said that Manchester was steady and doing a good business with India. Reports received here from the southwest said the chances were against a good crop owing to boll weevil, and that no satisfactory method of exterminating the insect had yet been discovered in Texas. Port rewere 11,030; United States port stocks, 747,127. Exports today were 6,825, making 5,668,793 so far this season.

NEW YORK SPOTS. New York, June 30 .- Spot cotton steady; middling, 22.20.

#### DOWNWARD MOVEMENT EFFECTIVE DURING WEEK.

New York, June 30 .- The downward movement which was under way in the cotton market at this time Jast week, continued until October contracts sold at 20.74 on Monday, making a decline of 221 points from the recent high record.

of business as accounts were evened up in preparation for the government crop report and holiday of next week. No less than 15 private end-month crop reports have been published.

They have shown condition figures ranging from 69.7 to 75, averaging a shade above 72 per cent of normal. Of these reports nine have carried crop indications, which have ranged 170,400,600 up to 11,674,000 bales and averaged 11,136,000.

69.1 Last Year. At this time last year the average of private condition figures was 69.1 and of crop indications 8,187,000

The report expected from the government on Monday will give the preliminary estimate of acreage under cultivation as well as the condition figures and will furnish the first official crop report of the season. According to a canvass made today, New York cotton exchange members expect to report to show a condition of 73.2 compared with 69.6 a month ago, 69.2 last year, 70.7 in 1920, and a 10-year average of 76.9 as of June 25.

Local brokers assume that the mart has been evened up on the basis this expectation as to condition, less uncertainty seems to be felt as to the probable showing of the official acreage figures which will of course affect the crop indication.

Boll Weevii Menace. accompanied by more numerous com-plaints regarding the presence of boll weevil and prospective insect damage, but have not been regarded as detrimental to the actual growth of the T

Notices representing 146,000 bales have been issued against July con-racts by two or three of the leading spot firms here. It is reported that no less than 27 firms are taking up cotton and after selling at a slight discount, July recovered to about or a shade over the price of October. Liverpool has reported a less active spot demand, but a steady goods mar-ket at Manc ester owing to a fair business with India.

#### UNDERTONE STEADY IN NEW ORLEANS

New Orleans, June 30 .- While the cotton market was depressed from the opening today the decline at no time was wide and the undertone was steady during practically the whole session. It was much of a pre-bu-reau market with traders of all kinds more inclined to even up than to enter into fresh commitments. Lowest prices were reached in the early trading when the list showed losses of 20 to 22 points.

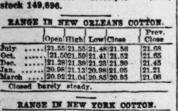

20 to 22 points.

From then on price changes were very narrow. Recoveries carried the list back to within 4 to 9 points of yesterday's, close, and last prices showed net losses on the day of but

Selling on the early part of the session was due to fairly favorable weather conditions over the belt, no great amount of rain being reported, to uncertainty over the railroad labor situation and to poor cables. During the day a private condition report of 75.0 per cent of normal was issued 75.0 per cent of normal was issued but it did not result in any selling of consequence, although it was the highest private condition report yet is-

The steadiness of the market was by reports of a good spot de in the markets of the western mand in the markets of the western belt, statistics showed further shrink age in supplies the total visible of American being counted by Hester at 2,467,035 bales against 4,245,388 a year ago and continued prominent mention of the prevalence of the boll weevil in nearly all crop accounts.

Coffee.

New York. June 30.—There was a further scattering liquidation in the market for coffee futures here today. Rumors of sales of valorization coffee have been definitely denied, but reports that some of the coffee taken up on contracts in the local market last December has been marketed to roasters, continue to circulate. According to local brokers, the talk of this sort has had an unsettling effect on sentiment and probably led to the evening up of some old long accounts. New York, June 30 .- Dullness incident to the aproaching holiday was the feature of today's aimless stock market. In the turnover barely 500. 000 shares many of the usual leaders were quoted only occasionally and some were neglected.

Rails were the strongest issues. Accumulation of some of the more seasoned shares of that group evidently indicated Wall street's growing conviction "means would be found to COTTON STATEMENT break the deadlock between employees and the railroad executives.'

New York, June 30.—Stronger conditions prevailed on the curb exchange today with the improvement most pronounced in the Standard Oil group. Those Standard Oil shares were in scant supply during the forenoon and urgent buying orders were quickly in evidence carrying Imperial Oil of Canada up from 111 to 116 and advancing Indiana from 103.1-2 to 1971-8 Kentucky rose from 93 to 94 and International Petroleum advanced from 21.1-2 to 223-8. Southern States Oil in which there again was heavy trading to the regular quarterly dividend of two per cent on its preferred stock. The president of the company reported international Petroleum advanced from 21.1-2 to 223-8. Southern States Oil in which there again was heavy trading up to a new high fol-

New York, June 30 .- Dun's tomorrow will say:

"The half year just ended brought a distinct advance in business with most of the gain in trade and actual transactions achieved during the second quarter. Unsettled labor conditions in some industries have long been a detriment, curtailing operairregular, and many interests will be more active this summer than was anticipated. Interruptions from inventories and vocations will be experienced, as usual, but there is clearly more work to be done this year and shutdowns will be less general and extended

"A new and rather unexpected phase "A new and rather unexpected phase has arisen with the more frequent reports of labor scarcity in certain lines, the steel industry among them and competitive bidding for workers is heard of in isolated instances.

## Holiday Exodus Leaves Stock Trading Quiet; Mex Petroleum Declines

Constitution New York Financial Correspondent.

New York, June 30.—While the governors of the stock exchange voted to turn down the petition of the members asking that Monday be declared an extra holiday, a number of traders have already left town to get away from the hot spell, to be gone until Wednesday, and consequently business slowed down today, Steel Common failing to appear on the tape until 10:36, something very unusual. Mexican Petroleum had several sinking spells today, touching 174 during the early trading compared with yesterday's high of 186 and 204 1-2, the high for last

Monday following the decision of the stock exchange that the stock had

not been cornered. One of today's most interesting news developments was the announcement that the Hudson Motor company had reduced the selling prices of Hudson and Essex cars from \$50 to \$100. In most automobile quarters, as a result of the recent activity, predictions had been made that prices were to be increased. Today's developments not only make a general price increase unlikely, but it makes price reductions by other companies extremely likely. Rumors were heard today that the next company to announce a price reduction would be Buick. The Buick and the Hudson people, it was argued, were after Studebaker's business. and the Hudson people, it was argued, were after Studebaker's business. The feeling here today was, however, that price cuts, while indicating that the edge was off of the year's buying movement would not be anything like those of last year.

A weekly increase of 2,497 men on pay rolls was announced today by the Detroit Employers' association, bringing the number of employed up to 180,971. This compares with 109,000 for the same week of last year, and with 189,000 for 1920, when business was still booming. There has been an increase in those employed in Detroit, it was reported, of 145,000. That represents a great volume of buying power.

Dismal War Debt.

Treasury officials frankly admit they are discouraged over the out-look for collecting or refunding inthey are discouraged over the outlook for collecting or refunding interest or principal on the \$11,000,000,000,000 with debts owed our government by other nations. The war debt refunding commissioned appointed by President Harding under the recently passed law promptly asked each nation owing our government for a detailed statement of their position and intention. Today's information from Washington says that only a very few replies have been received and that these make the outlook dark. France says she will be unable to pay even interest for the next two or three years. Other replies are less encouraging than that of France. England, which many months ago made plans in her budget for interest payment to us this year, so far has made no reply to the inquiry of the war debt refunding commission. And so far no interest has been paid.

with demand continuing strong and with the cost of operations increasing through fuel and higher wages, the steel companies continue to advance prices. The average selling price of eight principal iron and steel products is now \$47.04 a ton against \$46.48 a week ago, \$42.12 the low for the year made last February, \$85.02 the high for 1920 and \$37.11 the average for the 13 years ending with 1913.

### Business Improvement Continues in South

Business conditions in the sixth federal district continues to improve, according to the monthly bulletin issued.

"Employment conditions continue to tions and enhancing costs of produc-tion and the threatened railroad Friday by the Federal Reserve Bank cities of the district. Increasing emstrike increased uncertainty this week.
"Despite various drawbacks, however, recovery from previous depresit has been in many months, the reductive from the content of t sion has been substantial, if highly view declares, and a more rapid improvement is expected during the next

few months.

The district summary is as follows:
"Although there is still considerable rregularity in conditions in the sixth federal reserve district, the general opinion seems to be that progress is being made toward improved conditions. Certainly the attitude of busibeing made toward imposed to the being made toward imposed the states of the price index numbers which report to the Monthly Business Review is more cheerful and optimistic now than it may a few menths ago toward present month.

"An increase of production is noted basic industries." of cotton is having a stimulating effect on almost all lines of business.

Excessive Rains. "The district generally has bad an

excess of rain since the beginning of the year, and this has been a handicap to the preparation of the ago-soil for planting; it has delayed planting consistrably, and has caused some damage to crops after planting has been done. The first estimate by the department of agriculture as to the condition of the cotton crop was made, and showed the condition on May 25 to be 69 for cent of parameters.

Savings Increase.

"For the first time in many months the statement of debits to individual accounts at the principal cities of the district has shown an increase over district has shown an increase over the corresponding period a year earlier. Not all of the cities show an increase, but the aggregate figures for the district for the five weeks ending May, 1922, were 1.7 per cent larger than for the same period in 1921. Savings deposits reported to the Review by 82 banks in the district were larger at the close of May, by 1.5 per cent, than at the end of April, and larger by 2.4 per cent than at the end of May, 1921. Failure in the district in May were substantially smaller, both in number and in total of liabilities, than during the preceding month, and the liabilities were ing month, and the liabilities were less, though the number was larger, than during May of last year. "Building activity in the district

"Building activity in the district shows no sign of lagging. Of 22 cities for which comparative figures are available, 15 showed increases, many of them substantial, over per mits issued during May last year, while only seven decreases were reported. The resulting demand for lumber has brought continued improvement in that industry, and orders have exceeded production by the mills in the district for a number of weeks.

neeks. "Improvement in textile manufac-turing in the district is evidenced by increased output of both cloth and yarn mills, as well as a further in-

out the United States is as follows:
"The outstanding features of the economic development during the month have been the continued and noteworthy increase in the physical volume of production and a continu-ance of the advance in prices noted for the month of May, the wholesale price index numbers of the United States bureau of labor statistics show-

in highly finished lines of manufacture as well as in basic industries Wholesale groceries and hardware chow a very pronounced advance over April, but in dry goods and shoes a seasonal recessional is reported. The retail trade for the first time in many

Demand for Labor. "Although the production of anthra-cite coal has been reduced practically to nothing, the production of bitum-inous coal of non-union mines has help to keep industry well supplied with fuel, at the same time that the petroleum output for the month has to be 69.6 per cent of normal, compared with 66 per cent on May 25 last year.

"The estimated condition of the crop in this district is higher, for each state, than the average indicated for the United States. Information from various parts of the district, however, shows that the holl weavil is attack. example, in the steel and building trades. Demand for agricultural labor also continues upward.

various parts of the district, however, shows that the boll weevil is attacking the plant in large numbers, and that damage from this source has already begun. Weather conditions have been favorable to the increase in number as well as activity of this insect.

"May retail business was only clightly lower than that of April, while sales by wholesale firms, except in two lines largely seasonal, were larger in May than during April, May wholesale business was better than that of May last year, only one line (groceries) showing a decrease in sales, and that a decrease of less than

This Christ said, not to stop courts from condemning and punishing crime, but because He knew the peril and sin of individual and private judgment of another.

Seeing Other's Rights Seeing Other's Rights

The same things are true of the dynamiters of cattle dipping vats. These men may think their own cattle safe and sound. But their outlook is so limited that they cannot see the menace of the tick coming back through his neighbor's cattle, and the necessity that other sections of the country are under for protecting their cattle against the protecting their cattle against the tick. The trouble of getting the cattle out of the swamp and driving them

senator Harris, of Georgia, adopted in the senate last night, to provide \$5,000 for experimental work on pecans by the bureau of plant induser. This insures the appropriation and the establishment of an experiment station.

The sum of \$7,000 is already available in the regular appropriation bill for nut culture work, and when the regular bill passed the senate they adopted an amendment of Senator Harris for \$5,000, which was lost in conference. The same item was urged again by Senator Harris in the deficiency bill, which now makes \$12,000 available for the work.

Accused Says Prisoner Was Offered Shorter Sentence To Testify Against Him.

Columbus, Ga., June 30.—(Special.)
'The case of Bryant Toole, former taxi driver, charged with dynamiting the home of Mayor Homer Dimon, on the night of May 21, went to the jury at 6 o'clock tonight in Muscogee superior court. The jurors retired late tonight to resume deliberations early Saturday.

Saturday.

Toole made his statement this morning. He was nervous and his remarks at times lacked coherency. He talked six or seven minutes and declared he was wholly innocent. In opening his statement, he said: "I am not guilty of the crime of

"I am not guilty of the crime of which I am accused. I have never known Mayor Dimon nor have I ever had any evil thought of the others of the city officials nor of commission government. John Adams told me, while we were in jail, that Detective Gibson promised him that he would get three months off his sentence, which he is now serving, if he would swear against me and that he had promised to come and do all he could to help him out."

The defendant stated that he was at home Saturday, preceding the bombing on Sunday morning, and until the following Monday because of the illness of his wife. He denied having had the convercations testified to by witnesses to the effect that he knew who placed the bomb at the home of the mayor and who struck the former city manager.

#### FORMER KLAN CYCLOPS **GUILTY OF ASSAULT**

WORK NOW ASSURED

Bakersfield Cal., June 30.—John H. Vitelle, former exalted cyclops of the Taft, Cal., Ku Klux Klan, was found guilty by a jury last night of assaulting Dr. Dwight R. Mason, by beating him with ropes. Vitelle was acquitted of a charge of assault with intent to commit murder, and the jury disagreed on the charge of assault with intent to do great bodily injury by hanging.

The third indictment, on which Vitelle was convicted, is punishable by from 1 to 10 years in prison. He will appear in court for sentence Monday.

clency bill, which now makes \$12,000 available for the work.

The bureau of plant industry will select the site for the station, after investigations by their representative. Senator Harris said-today he hoped the station would be placed in Georgia, but the matter was entirely in the hands of the experts of the bureau.

In view of the rapid strides being made in pecan development in Georgia it is thought that the additional efforts of the federal government will mean much to the industry.

Anti-Saloon League.

Greer intimated that the Anti-Saloon league and secured the appointment of Jones, who is the son of Dr.
C. O. Jones, state superintendent for
the league, and that since the appointment Jones has betrayed the league.

When Greer was arraigned for prelimenary trial Friday, Hooper Alevsuder, his atterned my yed for dismisander, his atterney moved for dismissal on the ground the issuance of the warrant on which he was arrested had een irregulas. Commissioner Cartes declined to termit a discussion of points of law and proceeded with the hearing of evidence.

James C. Gentry, a white convict, estified that he had sold Greer 86 gallons of whisky in July 1919, for the sum of \$516. Greer was held on his

N. T. Jones replied Friday to a statement issued Thursday by Greer in which Greer charged him with maliciously persecuting him.

"He stated that I demanded that he be put under a \$5,000 bond. That is untrue. I suggested to the commis-cioner that Mr. Greer be allowed to sign his own bond."

Greer's Statement. Greer's statemen' Friday was a

"The effort of N. T. Jones to pos as a high-class officer may fool those people who are not aware of his char-acter, past and present. Those who know his past reputation and his present associations will know, withou being told, that there is something rot his appointment.

"If the trustees of the Anti-Saloot league will investigate the matter they will be amazed to discover how far their organization is responsible, and how they were betrayed in the bargain that was made It is a somewhat in-teresting fact that his cases are based

on the testimony of crooks and others whom he does not indict. "Nobody who knows the facts will doubt that his whole motive is malice. He brought a convict out of the chain-gang this morning at government ex-pense to swear to a charge that even if true was not a violation on my part By the convict's own testimony, if rot. "I warn the Anti-Saloon league that if they expect to retain the public con-fidence they should inquire into the bargain, and take fearless and ap-

bargain, and take fearless and appropriate action."

Greer was the first witness to appear before the grand jury when it began to hear complaints from various individuals from over the state as to the assessment plan of the republican educational society. It was charged by Greer and his associates that those in charge of the collections made the federal officenolders feel that by failing to contribute heavily to the fund they were jeopardizing their position.

Clint W. Hager, district attorney, personally conducted the examination of witnesses. James W. Wilson was foreman of the jury. The decision of the grand jury last Tuesday was never made in writing, but it is accepted at the federal building as being practically final.

#### CENTENARIAN LIKES **NEW YORK CHANGES**

New York, June 30.—Former United States Senator Cornelius Cor, who will be 100 years old September 11, has looked New York over atter an absence of 40 years and approved the changes and developments made during his absence.

The ruddy faced, twinkling-eyed old gentleman, who first took his place in congress in 1801, has inspected Riverside drive, the subways, skyscraper flappers and motion picture palaces and found them all good to look upon Mr. Cole, who looks 40 years young-

er than his age, considers, next to the abolition of slavery, for which he voted, his work for a trans-continental railroad as the most important of his

world events written largely across the pages of history, does not think much of feminine politics, and on pro-hibition, too, he has decided views. "I used to make pretty good wine in California, and I can't see that it did me any harm," he said. "I favor restriction of the sale of strong drinks, but I cannot see any harm in mild drinking."

Skin Itched and Burned. Cuticura Heals.

"I was troubled with tetter on my hands for two years. The skin became red, dry and sore, and itched and burned causing me to scratch and irritate it. When I stretched my fin-gers they would crack and bleed so that I had to band-age them, and when I put them in water the pain al-

most set me crazy.

"Nothing I used did any good until I tried Cuticura, and after using one cake of Soap and one box of Ointment I was healed." (Signed) Miss Mary Mays, Raphine, Va.

Use Cuticura Soap, Ointment and Talcum for all toilet purposes. Sample Each Free by Mail. Address: "Outlears Lab-eratories, Dept. M. Malden 43, Mass." Sold every-where. Soap 56. Ointment 25 and 50c. Taleum 25c.
